# Intro | Brief

## UI Deliverables

UI design in artboards using the approved software applications - Ai, Xd, Id, Ps or compatible file type.

- All aspects of the design is required, only original work will be expected including icons, buttons, and any supporting visual elements.
- Explanation of your choices in the design to be included in your working file alongside your artboards. Each artboard is to have minimum two sentences of explanation of design choices.
- Your UI kit used to create your interface, this can be a single artboard with interface components used. If you are using Xd your components in the interface of the program can be used to display this.
- Only the screens in the UX are required to be designed.
- Working file to be submitted with your Langara ID and last name with this PDF.

## UI Constraints

- This projects interface should be modern and following latest design trends.
- Typography, iconography and styling must also be modern in design.
- Colour pallet required is monotone - warm pallet.
- Contrast is preferred but no overuse of white in the interface.
- Black for typography is too dark for this interface.
- Media to be included in the design of the final interface.
- Some liberties can be taken from the UX, but no function based changes.

# UI Kit | Mockups

The mockup shows a mobile application interface for editing an item. The header is a solid orange bar with a white back arrow on the left and the text 'EDIT ITEM' and 'STORE C' in white. Below the header, the main content area has a light orange background. On the left, there's a large white box with the text 'Add product image' and a small '1/6' indicator. To its right, there's a 'Delete' button and three 'Product XYZ' labels. Below this, a white box displays '\$99.00'. Further down, there are two rows of controls: 'Local' with a '32' value and a dropdown arrow, and 'Total' with a '32' value and a dropdown arrow. Below these are four 'Category' input fields arranged in a 2x2 grid. A large white rectangular area follows. At the bottom, there are two toggle switches for 'Local only' and 'Canada Post'. Below the toggles are three orange buttons: 'Shipping Details', 'Variants', and 'Cancel'. At the very bottom, there are two more buttons: 'Cancel' (orange) and 'SAVE' (orange), and a dark brown 'Delete' button.

Monochrome colour pallete.

Custom made icons.

No black used for typography.

Buttons colour choice represents hierachy.
